FIELD CROP ABSTRACTS

VOL. 8, Nos. 1, 2, 3 and 4

1955

Prepared by the
COMMONWEALTH BUREAU OF PASTURES AND FIELD CROPS

Published Quarterly by
Commonwealth Agricultural Bureaux, Farnham Royal, England.

The chief aim of this Bureau is to abstract all published results of current scientific research on annual field crops, herbage and fodders, and to make these abstracts available through our two quarterly journals *Field Crop Abstracts* and *Herbage Abstracts*. To achieve this aim, the Bureau staff maintains a constant scrutiny of approximately 900 periodicals, reports and occasional publications which reach us from more than 75 countries. The Bureau is always seeking to expand its coverage and suggestions for suitable additions to this list will be appreciated. All scientific publications relating to annual field crops, herbage and fodder crops, particularly special reports and advance copies of papers, are required so that they may be abstracted and their contents made known to our readers with the minimum of delay. *Field Crop Abstracts*, now in its 8th year, has a world-wide circulation.

Translations are not undertaken by the Bureau, neither can publications other than reprints be loaned, but arrangements can be made with an outside agency to supply photostat or microfilm copies of papers at cost price.

Suggestions for review articles, or comments on those published in the journals, are invited.

The Director is always pleased to receive comments on *Field Crop Abstracts* and any suggestions for its improvement.
